Each of the motifs is unique – feel nature!

The touchable refined surface now makes nature come alive even in everyday places. With the series "NATURE" HERMA succeeds in bringing home the raw, delicate and vulnerable sublimity of nature: rough as well as ancient structures, formed and grown partly over millions of years. Rough yet fragile, wild and unpredictable, annual rings full of stories and a breath of eternity, a fleeting moment, a glimpse into the age of eternal ice.
